A Famous Model

A Famous Model

Karolina Kurkova

A Famous Model

Prisoner's Dilemma

Game Theory

Not a grand explanation as
“Theory” in Science

A toolkit for building models

The game

Player 2

**Player
1**

The game

Player 2

Cooperate

Defect

Cooperate

**Player
1**

Defect

The game

Player 2

Cooperate

Defect

Cooperate

4, 4

Player 1

Defect

The game

Player 2

Cooperate

Defect

Cooperate

**Player
1**

Defect

	4 , 4	
		2 , 2

The game

Player 2

Cooperate

Defect

Cooperate

4 , 4

0 , 6

**Player
1**

Defect

2 , 2

		Cooperate	Defect
Player 1	Cooperate	4 , 4	0 , 6
	Defect		2 , 2

The game

Player 2

Cooperate

Defect

Cooperate

4 , 4

0 , 6

**Player
1**

Defect

6 , 0

2 , 2

		Cooperate	Defect
Player 1	Cooperate	4 , 4	0 , 6
	Defect	6 , 0	2 , 2

Strategic Interaction

		Player 2	
		Cooperate	Defect
Player 1	Cooperate	4 , 4	0 , 6
	Defect	6 , 0	2 , 2

Each player's pay-off depends on what he chooses, but also what the other player chooses

Comparing Outcomes

		Player 2	
		Cooperate	Defect
Player 1	Cooperate	4 , 4	0 , 6
	Defect	6 , 0	2 , 2

Comparing Outcomes

		Player 2	
		Cooperate	Defect
Player 1	Cooperate	4 , 4	0 , 6
	Defect	6 , 0	2 , 2

(4, 4) is not obviously better than (0, 6)

Comparing Outcomes

		Player 2	
		Cooperate	Defect
Player 1	Cooperate	4 , 4	0 , 6
	Defect	6 , 0	2 , 2

(4, 4) is not obviously better than (6, 0)

Comparing Outcomes

		Player 2	
		Cooperate	Defect
Player 1	Cooperate	4 , 4	0 , 6
	Defect	6 , 0	2 , 2

(0, 6) is not obviously better than, or worse than (6, 0)

Comparing Outcomes

		Player 2	
		Cooperate	Defect
Player 1	Cooperate	4 , 4	0 , 6
	Defect	6 , 0	2 , 2

But (4, 4) is clearly better than (2, 2) for everyone!

Suppose Player 2 Cooperates, Then Player 1 ...

Player 2

Cooperate

Defect

Cooperate

Player 1

Defect

4 , 4	0 , 6
6 , 0	2 , 2

Suppose Player 2 Defects, Then Player 1 ...

Player 2

Cooperate

Defect

Player
1

Cooperate

Defect

	Cooperate	Defect
Cooperate	4 , 4	0 , 6
Defect	6 , 0	2 , 2

Player 1's best strategy

Player 2

Cooperate

Defect

Cooperate

Player
1

Defect

	Cooperate	Defect
Cooperate	4 , 4	0 , 6
Defect	6 , 0	2 , 2

Player 2's best strategy

Player 2

Cooperate

Defect

Cooperate

Player
1

Defect

4 , 4

0 , 6

6 , 0

2 , 2

Both play their best strategies

Player 2

Cooperate

Defect

Cooperate

Player
1

Defect

	Cooperate	Defect
Cooperate	4 , 4	0 , 6
Defect	6 , 0	2 , 2

Both play their best strategies

		Player 2	
		Cooperate	Defect ✓
Player 1	Cooperate	4 , 4	0 , 6
	Defect ✓	6 , 0	2 , 2

...

BAD!

Nash Equilibrium

A situation where no player wants to change his strategy, given the other players' strategies

At (Cooperate, Cooperate) both players will change strategy

		Player 2	
		Cooperate ✓	Defect
Player 1	Cooperate ✓	4 , 4	0 , 6
	Defect	6 , 0	2 , 2

At (Cooperate, Defect) Player 1 will change strategy

		Player 2	
		Cooperate	Defect ✓
Player 1	Cooperate ✓	4 , 4	0 , 6
	Defect	6 , 0	2 , 2

(Defect, Defect) is a Nash Equilibrium

		Player 2	
		Cooperate	Defect ✓
Player 1	Cooperate	4 , 4	0 , 6
	Defect ✓	6 , 0	2 , 2

...

BAD!

The Prisoner's Dilemma

The Prisoner's Dilemma

The Prisoner's Dilemma

“Will you confess?”

“Will you confess?”

Prisoner's Dilemma

Player 2

Don't Confess

Confess

**Don't
Confess**

Confess

**Prisoner
1**

Prisoner's Dilemma

Player 2

Don't Confess

Confess

**Don't
Confess**

- 6 , - 6

Confess

**Prisoner
1**

		Don't Confess	Confess
Prisoner 1	Don't Confess	- 6 , - 6	
	Confess		

Prisoner's Dilemma

Player 2

Don't Confess

Confess

**Don't
Confess**

- 6 , - 6

- 10 , - 3

**Prisoner
1**

Confess

- 3 , - 10

		Don't Confess	Confess
Prisoner 1	Don't Confess	- 6 , - 6	- 10 , - 3
	Confess	- 3 , - 10	

Prisoner's Dilemma

Player 2

Don't Confess

Confess

**Don't
Confess**

- 6 , - 6

- 10 , - 3

Confess

- 3 , - 10

- 8 , - 8

**Prisoner
1**

		Don't Confess	Confess
Prisoner 1	Don't Confess	- 6 , - 6	- 10 , - 3
	Confess	- 3 , - 10	- 8 , - 8

Prisoner's Dilemma

Player 2

Don't Confess

Confess

Don't
Confess

- 6 , - 6

- 10 , - 3

Prisoner
1

Confess

- 3 , - 10

- 8 , - 8

Nash
equilibrium

That's all the Game Theory you'll see here!

**The objective is to illustrate how economists
use models**

**Next up:
Experimenting with
the Model**
