

# ES2660 COMMUNICATING IN THE INFORMATION AGE

SMART TALKING STUDENTS ENABLING IDEAS TO TAKE LIGHT

**T9 - T10: CA2 GROUP PROJECT –  
USING YOUR RUBRIC TO DEMONSTRATE CRITICAL THINKING**

**GL Lee [elcleegl@nus.edu.sg](mailto:elcleegl@nus.edu.sg)**

## TO DO, TODAY

- Listen attentively
- Give feedback on successful strategies for articulation and content presentation
- Ask questions to show attentive listening and intellectual curiosity – team and individual (CP)

*Listening attentively is a CT skill, albeit one that is passive until spoken as a question or articulated as a comment. The entire package of listening, asking and commenting shows respect and intellectual curiosity, so these are skills that you should also want to be known to have as part of your arsenal of awesome soft skills.*

## EACH TEAM LISTENING SHOULD...

- Ask ONE question of the presenting team
- Answer or comment on TWO questions raised by tutor or other teams or on the answer of someone in a presenting team

## PRESENTING TEAM – FEEDBACK ON GROUP DYNAMICS

- After you have submitted your CR and slides, please complete this survey on how you got on – if all is well, we will make a credit note in class participation; if there are issues, we may be able to help.

# ANY QUESTIONS?

Before we begin, are there any questions?

*Feel free to ask questions not just about **what** we are doing, but **why** we are doing it.*
